

PLATYPUS SWIM PLATFORM

Portable & removable - great for swim schools and rehab pools

Para Mobility has designed this swim platform to specifically address durability problems associated with light weight swim platforms.

With a sturdy frame and transport wheels, the Platypus Swim Platform is easily moved by one person and will suit any pool. It is specifically made to be stored vertically to maximise storage space.

The Platypus Swim Platform comes in two sizes (150cm x 90cm and 120cm x 60cm) and is made to order.
